Q: Near the end of the main story in *Hungry Joker* Vol. 3, in the scene where the Maburo are gathered in the castle in the air, isn't Gueldre Poizot from Black Clover just casually there?

(Saori Satō, Fukushima)

A: You're right. That's Gueldre! I liked his hard hammishness, so I had him put in an appearance. Although he got caught right after he'd finally managed to show up...
